

COMPREHENSIVE SERVICES | UNBEATABLE RESULTS

Our 360,000 square foot state-of-the-art manufacturing and technology center utilizes ISO 9001:2015 QMS quality control measures designed to ensure that each and every product meets our high standards of durability and performance.

Plastic Injection Molding

7th Street's state-of-the-art plastic injection facility provides efficiency, scalability, and cost-effectiveness, making it a preferred choice for manufacturers seeking to achieve high volumes of identical parts with minimal waste.

3D Printing

The on-site, full-service 3D printing lab at 7th Street Solutions offers a rapid and cost-effective solution for manufacturing prototypes, allowing for precise customization and iteration in product development.

Automation & Integration

Whether it's automating a manufacturing process, optimizing production lines, or inventing entirely new equipment, our automation and integration processes blend precision, innovation, and meticulous attention to detail.

Value Added Assembly

Integrated automation and Poke-Yoke assembly devices and techniques can streamline the process of combining individual components into a final product.

Global Part Fulfillment

7th Street Solutions offers a turnkey solution for sourcing and delivering components or products worldwide to meet demand and optimize supply chain efficiency, ensuring accurate and timely deliveries.

Quality Programs

As an ISO 9001 certified facility, 7th Street's team can provide expert consultation in the areas of quality assurance program implementation, optimization and certification audit preparation.

What Sets Us Apart

Advanced Machinery

Over 31 state-of-the-art machines, ranging from 75 to 500 tons, can handle any project size.

Proven Expertise

Four decades of experience enable us to understand and solve complex challenges.

American-Made

Based in Michigan, we're proud to use industry to support the local community.

 **ISO 9001:2015 QMS**

YOUR INVESTMENT

Choose Precision. Choose 7th Street Solutions.

Whether you're a pharmaceutical company or an electronics manufacturer, 7th Street Solutions is ready to support your plastic injection needs so you can serve customers, produce efficiently, and succeed in a competitive market.

For unmatched quality in plastic parts, the choice is clear. Let's start producing something great together.

Sectors We Are Ready To Serve

Automotive

Telecommunications

Food & Beverage

Pharmaceutical

Construction

Medical

Electronics

Packaging
